

USNER

USNER CHEMICALS

Chemical Technology
For Your Industry

Our Story

Usner Chemicals, founded in 1949, provides chemical-technical consultancy and trades in thermoset materials as well as silicone elastomers.

With a skilled and experienced team, we constantly seek to innovate and to foster entrepreneurial relationships with our clients and suppliers around the globe. Being a family-run enterprise, we provide sustainable business operations since three generations – enabling us to ensure a state of the art service and a concentrated focus on offering customized solutions.

Mag. Clemens Usner

Managing Partner

USNER Chemicals

Special Additives

Nanocompounds
Core-shell
Halogen free flame retardant

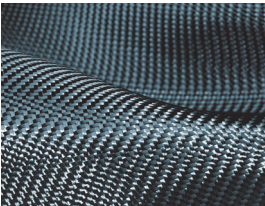

Adhesives

2k-Epoxy
2k-Cyanacrylate

Prepreg

Room temperature storage
One-component powder resin
Snap cure

Polyester

Gel coat
Top coat
UPES
Vinylester

Graphene

Powder
Compounds

Epoxy

Resin
Hardener
Tailor-made systems
Reactive diluents
Rubber modified

Reinforcement Materials

Carbon fibers
Glass roving
Mats

Liquid Silicone Rubber (LSR)

Electric power
Industrial
Automotive
Food
Medical

Silicone

Condensation curing
Addition curing
SMP

Source Area

Austria, Belgium, China (Shenzhen, Quzhou), Czech Republic, France, Germany, Korea, South Africa, South Korea, Thailand, USA (Philadelphia), Poland

Sales Area

Austria, Bulgaria, Czech Republic, Croatia, Germany, Hungary, Poland, Romania, Serbia, Slovakia, Slovenia and Ukraine

Our customers operate in the following industry sectors:

- Composites
- Automotive
- Paints
- Adhesives
- Electric Insulators
- Sealants
- Coating
- Abrasives
- Aerospace
- Casting
- Flooring
- Sanitary
- 3D Printing

Some of our Partnerships

Square Silicone

Nord Composites

KC Plastic Cluster

CTP Chemicals and Technology For Polymers

Evonik Industries

GrapheneUp SE

FRX Polymers

Kisling AG

New Era Materials
