

3.5T10 MultiLite for your Product Distribution

MultiLite is a multi-temperature body designed for combined delivery systems with a **great variety of goods** (fresh and frozen products, ice cream, dairy products, beverages, etc.). Modern **eutectic equipment** allows to simultaneously transport different temperature products, therefore reducing your fuel costs and increasing the efficiency of your logistics. MultiLite is **ideal for product distribution or home deliveries** as it has a combination of separate compartments with different inside temperatures.

up to **1 000 kg** payload*

24 months isothermal body warranty

 mobile service team

Compartments

- 5+5 side doors
- Any combination of deep freeze and chilled compartments
- 1 door to technical compartment
- Door opening (W x H): 600 x 1.000 mm

Standard equipment

- Eutectic plates
- Cooling unit in front left compartment
- Manual anti-theft locking system
- Open door retainers
- Stainless steel handles
- Inside and outside thermometers
- Aluminum shelves
- Anti-slip aluminum steps
- Mudguards
- Rear rubber bumper
- Plastic grid on floor
- Inside LED lighting

External dimensions (L x W x H)

3.611 x 2.020 x 1.682 mm

Internal volume

7.5 m³

Heat transfer coefficient, K

< 0.24 W/(m²K)

Support of operating temperature

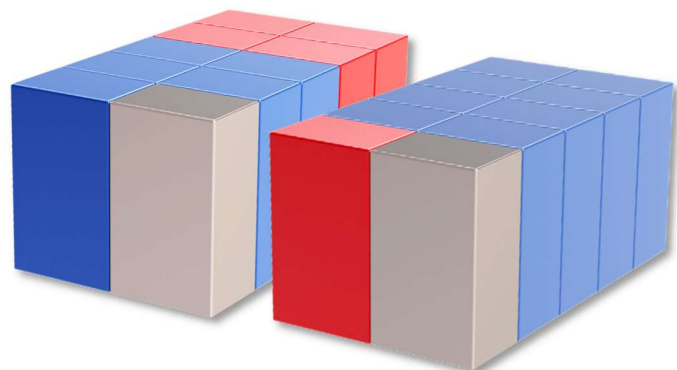

8–10 h**

Average time of pull-down

6–8 h

Operating temperature

-  deep freeze compartments: -35 to -18 °C
-  chilled compartments: +2 to +7 °C
-  technical compartment: ambient

* depends on configuration

** depends on working conditions

Examples of compartment combinations

Additional options

- Electric anti-theft locking system
- Additional aluminum shelves
- Side LED lighting
- Advertising panel with glass window
- Rear doors
- Trolleys
- Subframe
- Rear underrun protection device (RUPD)
- Rear view camera
- Parking system
- Battery charger
- Vehicle wrapping

Carlsen Baltic is a long-established producer of refrigerated truck bodies for lightweight commercial transport. Solutions by Carlsen are equipped with eutectic cooling systems providing energy efficient operations, fast pull down and durable holdover at low temperatures. Constant innovations and focus on quality enable the company to maintain weight and efficiency leadership within deep freeze distribution sector in the EU.

Carlsen is a Danish origin entity with a manufacturing site in Lithuania.
