

## DRAINING MATS

Invented and developed to replace straw mats, the Servi Doryl range of mats is the widest on the market.

The mats can be adapted to the dimensions of your moulding trays and are suitable for mechanised lines.

### RANGE

- Reversible or raised mats
- Saniclaies® mats with grooves
- Meshed draining mats

### MATERIALS

- Injected parts in polypropylene copolymer
- X-ray or metal detectable materials

### USE

- On a tray
- On a rack
- On a table
- Can be clipped thanks to pins

Wide range of sizes  
For all soft cheese and fresh products

Cleanability foreseen from the design phase  
High resistance to cleaning products (up to 75°C)  
Easy maintenance, fast drying

Mats with or without feet  
Two spaces between the baguettes available for raised mats  
Optimization of the draining process

Different colours suitable for food contact (certified)  
Easy identification on the production line
