

ADVANCED ENGINEERING
WEDGEWIRE

Customized Filtering Solutions for Industrial Applications

WATER WELL SCREEN

ABOUT US

ADENWEDGEWIRE operates in Technopark Istanbul which is the biggest technology development centre in Turkey. We carry out R&D activities with a **highly skilled engineering** team that specialized in designing and manufacturing customer-specific wedge wire products depending on the requirements.

Our wedge wire screens focus on full customer satisfaction in terms of **competitive cost**, **short shipping time and high mechanical properties**. Manufacturing consists of robotic systems that enable high precision and flexible solutions.

Manufactured with Stainless Steel 304, 316, 316L, 316Ti, 321, Superduplex or depending on your request with different kinds of application based surface treatments and coatings.

OUR CAPABILITIES

- Design & manufacturing of unique and customized
 Wedge Wire Screens
- Design and supply of Coanda Intake Screens
- Manufacturing of Special Bi-Cylindrical Screens for a wide range of industries
- Specific surface treatments depending on application for longer life
- Specialized tilted-wire construction to provide high filtration performance

Cost-Effective Screens

High performance filtration and durability with lower unit price

Customized Dimensions

Manufactured depending on your request and requirement

Challenging Delivery Time

The fastest possible shipping to solve problems immediately

Customer Support

Support to design and field applications

WATER WELL SCREEN

The water well screen V or wedge shaped wires around an internal array of longitudinal support rods. It is designed for the well intakes. It is also called 'Vee' wire screens in some applications.

- Special surface treatment
- Modular and customizable design
- Corrosion resistance
- Durable long service life
- Precise open gap
- Suited for many applications

Water Industry	Mining	Other
Waste Water Treatment	Mine, coal, mineral Processing	Industrial Boring
Water Intake Systems		Petrochemical and Oil
