

LABEL SLEEVING MACHINE

DESCRIPTION

This fully automatic sleeve labeling machine is suitable for various kinds of bottles, like round bottles, square bottles, oval bottles, etc.

This machine can automatically feed and cut film, and it can sleeve labels precisely, greatly saving labor and improving work efficiency.

The machine can be widely used for beverage bottles, cosmetic bottles, shampoo bottles, etc.

Single material shelf with reasonable height in order to make it convenient to install label.

It adopts rotary potentiometer which enable the label feeding stable and fluent and avoid the error label length, label block and other problem when label feeding servo convey the label.

It will stop automatically and give alarm light and also display on the touch screen

SPECIFICATION

1.	Operating mode	automatic
2.	Model	NP-150
3.	Input Power	2.5KW
4.	Input Voltage	63.380/220VAC
5.	Production Efficiency	Max 150(Bottle/min) according to bottle and label size
6.	Size of Host Machine	L2100mm x W850mm x H2000mm
7.	Applicable Diameter of Bottle Body	28mm-125mm
8.	Applicable Length of Label	30mm-250mm
9.	Applicable Thickness of Label	0.03mm-0.13mm
10.	Applicable Internal Diameter of Paper Tube	(Free Adjustment)
