Conductive Plastic Hollow Shaft Potentiometer

Series MHP24

- Space saving flat housing (ø24 x 7.1mm)
- Simple mounting on flatted hollow shaft hub and anti rotation pin
- Conductive plastic and high-quality multi finger wiper (precious metals) gives a reliable signal output

The conductive plastic hollow shaft potentiometer MHP24 allows based on the flatted hub and the anti rotation pin an easy and exact zero point alignment.

The flat construction allows the implementation under constricted rooms.
