Domino Sign Dmax2 and Dmax2+ are specially used for illuminating letter boxes of the 3 PMMA faces type, or aluminium edges and diffusing face. They are also suitable for backlighting coloured letters and logos.

The luminous flux makes it possible to use a small quantity of modules while offering a luminous intensity comparable to neon or fluorescent tube for a low consumption.

- ☒ Anti UV
- ☒ Driver
- ☒ IP 68
- ☒ 150° angle
- ☒ 4-year warranty
- ☒ Available in 7 colours
